## Lewmar DTX Anchor

The DTX anchor fills the gap between the existing galvanised and stainless Delta® anchors, allowing boat owners and builders to specify a more cost-effective stainless steel anchor.

Made from 316 stainless steel, the DTX anchors feature exceptional anti-corrosion performance and enhanced aesthetics. Utilising lead ballast encapsulated within the tip of the anchor to achieve the perfect centre of gravity, the DTX offers the initial bite and holding reliability that users of our Delta® anchors have come to expect.

- 316 stainless steel
- Proven performance
- Lead-ballasted tip for fast setting
- 3 year warranty
- Ordinary Holding Power
- Full range from 6kg-63kg
