

SIONYX NIGHTWAVE™ D1

ULTRA LOW-LIGHT MARINE CAMERA

Nightwave is an ultra low-light camera built around SIONYX's patented Black Silicon CMOS sensor. Nightwave gives professional mariners the ability to easily spot hazards and debris in moonless starlight without white light or expensive thermal cameras – navigating safely, avoiding collisions, and maximizing time on the water. IP67 rated, it's built to operate in the toughest marine environments.

Nightwave offers maritime professional agencies such as the Coast Guard, Harbor Patrol, and Border Patrol color digital night vision for surveillance and evidence-gathering, search & rescue, and covert operations. With the most advanced digital color night vision in the world, SIONYX Nightwave will guide you safely through any maritime environment.
