Phender
PRO

Call 888-213-1492

or email sales@PhenderPro.com for a price quote. Big Sky Precision sells direct: An OEM model for boat builders and a retrofit model for dealers.

Experience the Freedom!

The Ultimate Quick-Release Cleat.

ADVANCED TECHNOLOGY:

Big Sky Precision's proprietary technology makes Phender Pro™ the most advanced, easy-to-use quick-release cleat on the market. The Dentless™, delrin-tipped pin protects both the receivers and the boat finish. The Anti-Wear™ feature prevents scratching of the polished receiver.

CUSTOMER SERVICE:

“Cobalt boats has been buying quick-release cleats from Big Sky Precision since 2008. Their quality has been impeccable and their people always go the extra mile to keep our production lines moving.”

– Todd McPherson

Phender Pro™ combines advanced technology, innovative design and durability to make docking effortless. Machined from solid stainless steel and hand-polished to a mirror finish, Phender Pro™ allows you to quickly dock and undock with one simple click. Take the hassle out of docking and experience the freedom of Phender Pro.™

Because it is 100% made in Manhattan, Montana, we can custom design and manufacture Phender Pro™ to complement your boat design. Custom logos, exotic materials, special features—challenge us!

CUSTOM BRANDING:

Phender Pro™ can be customized to your specifications. The large, polished button can be laser-engraved with your logo.

OEM VERSION

ANTI-WEAR™ DESIGN:

Unique Anti-Wear™ design keeps pin above receiver protecting highly-polished finish.

SOFT EDGES:

Line attachment tabs are CNC-machined to soften edges and protect your line.

DENTLESS™ TIP:

Receiver protected by Dentless™ Delrin tip.

CORROSION RESISTANCE:

Quick-Release cleat and receiver are machined from Type 316 stainless and passivated for maximum corrosion resistance.

CUSTOMIZE PHENDER PRO:

Phender Pro™ can be custom tailored to your product line. Call one of our engineers to get started.
